MISSION

To help mothers worldwide to breastfeed through mother-to-mother support, encouragement, information, and education, and to promote a better understanding of breastfeeding as an important element in the healthy development of the baby and mother.

VISION

To realize, deepen and share the love and wisdom found in the breastfeeding relationship.

Board of Directors 2023-2024

Top row: Carolyn Driver-Burgess, Ellen Mateer, Devorah Schesch-Wernick, Marian Tompson
Middle row: Susan Oldrieve, Marianne Vakiener, Amy Shaw, Diane Thompson
Bottom row: Tiziana De Meo, Sarah Denniston, Zion Tankard (Executive Director), RuthAnna Mather
Over the past year, the energy and enthusiasm of La Leche League volunteers, donors, and staff members has set the stage for a healthy future. Meetings are held virtually and in-person worldwide by volunteer Leaders to bring information, resources, and support to breastfeeding families. New Leaders are being accredited to further our reach. LLLI continues to open its arms wide and welcome all who can benefit from our help.

LLLI has launched a new website filled with updated information in a user-friendly format. Its new Leader Database gives Leaders the ability to update their own personal information and make connections with other Leaders worldwide. The new Donor Database has proven to be a successful and effective tool in reaching our valued donors and securing much-needed funding. 2024 will see the presentation of a virtual LLLI Conference being offered in six languages, centering around the launch of the 9th edition of our flagship book – *The Art of Breastfeeding*. A Fundraising Gala will bring together donors, supporters, and past and present LLL Leaders to celebrate the launch of *The Art of Breastfeeding* and share in a forum with the four writers of the book.

LLLI Board Committee members work hard each day to further the mission of the organization and complete the goals of our strategic plan. A thorough review and updating of all LLL policies is nearing completion and will lead to a three-year review cycle to keep policies current. LLLI publications and notifications are being shared in six languages. New resources focusing on breastfeeding support in emergencies have been created and distributed, and the Marian Tompson Breastfeeding Support in Emergencies Fund has been established.

La Leche League is a unique organization with a vision to realize, deepen and share the love and wisdom found in the breastfeeding relationship. We applaud all La Leche League volunteers and supporters for carrying this vision forward in their local communities and throughout the world. Our Leaders are the lifeblood of the organization, and our donors enable us to share our vision far and wide.

With the other members of the LLLI Board of Directors, the Executive Director, and the dedicated La Leche League International staff, we look forward to a bright future filled with energy, enthusiasm, and enrichment!

Susan Oldrieve and Amy Shaw
Co-Chairs, LLLI Board of Directors
STRATEGIC GOAL 1

LLLI will be an excellent primary resource for the LLL community in providing materials and support for reaching more mothers and families worldwide.

Aligned Values: Collaboration, empathy, equity, diversity, inclusion, integrity

Current objectives: Expand the variety of breastfeeding support resources - including online, audio, video, pictorial resources, low-literacy resources; increase the variety of free resources for Leaders.

Achieved objectives: Held a virtual conference; added to webinar library; and completed revision of the Leader’s Handbook.

STRATEGIC GOAL 2

LLLI will increase LLL’s visibility and credibility as a worldwide resource for mother-to-mother, peer-to-peer breastfeeding support.

Aligned Values: Collaboration and integrity

Current objectives: Publish the 9th edition of The Art of Breastfeeding.

Achieved objectives: Identified writers submitted the manuscript for The Art of Breastfeeding; established a Medical Advisory Team of health professionals.

By 2025, LLLI will have achieved greater organizational stability and continue to be respected for its commitment to effective global leadership and the highest quality of mother-to-mother and peer-to-peer breastfeeding support and education worldwide.

2021-2025 STRATEGIC PLAN

Achieved objectives: Created a schedule to review all policies; 5 DCE Agreements signed; increased trademarks; created resources to introduce LLL to staff, donors, and partners, reviewed and updated database; DCE Connection Contributions were reduced by 25%.

STRATEGIC GOAL 3

LLLI will increase organizational stability and sustainability in the areas of trademark protection, finance, and internal communication.

Aligned Values: Integrity

Current objectives: Achieve and maintain financial stability by developing a variety of sources of income within and beyond the USA; increase financial reserves; reduce Direct Connect Entities (DCE) Connection Contributions; work with DCEs to complete Agreements.

Achieved objectives: Implemented at least two projects to improve Leader accreditation training; surveyed all Leaders about the application process; developed translation processes for all LLLI communications into six languages; increased Leader resources on diversity and inclusion; increased the diversity of images in LLLI publications.

STRATEGIC GOAL 4

LLLI will establish a more welcoming culture for Leaders and breastfeeding/chestfeeding families.

Aligned Values: Empathy, equity, diversity and inclusion, and integrity

Current objectives: Achieve and maintain financial stability by developing a variety of sources of income within and beyond the USA; increase financial reserves; reduce Direct Connect Entities (DCE) Connection Contributions; work with DCEs to complete Agreements.

Achieved objectives: Implemented at least two projects to improve Leader accreditation training; surveyed all Leaders about the application process; developed translation processes for all LLLI communications into six languages; increased Leader resources on diversity and inclusion; increased the diversity of images in LLLI publications.
In August 2024, LLLI was the recipient of a planned gift by the Roberta Pfeufer Kahn Trust of over $600k. LLLI hosted a table at the International Lactation Consultants Association (ILCA) Conference in July 2023 in Las Vegas, Nevada USA. LLLI launched its new website in August 2023. LLLI launched its new Leader Portal; a database with a directory for internal searches. Mid-Year Campaign raised US$21,165 with 139 donors (1 July - 30 August). World Breastfeeding Week: Step Up Together for Breastfeeding was celebrated for over a week from 1 August 2023 until 17 October 2023. Ligue La Leche and the LLL International Area Network (IAN) signed an agreement with LLLI, formally establishing their yearslong connection. The Board approved a motion that all equity, diversity, and inclusivity dialogue and action within LLLI be referred to as Equity, Diversity, Inclusion and Restorative Justice (EDIRJ). The LLLI Action, Networking and Advocacy Committee has created a subcommittee called “Marian Tompson Breastfeeding Support in Emergencies”. LLLI introduced three webinar resources: Bias and Breastfeeding; Breastfeeding and Human Rights; and Getting to the Heart of the Matter: The Mastitis Spectrum. LLL Leader and LLLI Medical Advisory Team Communication Coordinator, Ann Calandro was honored in August 2023 by being made a Fellow of the International Lactation Consultant Association (ILCA).
The La Leche League International (LLLI) End-of-Year campaign brought in US$144,289 to help families access crucial breastfeeding resources globally. 10% of all proceeds up to US$10,000 from our campaign is going toward funding the new Marian Tompson Breastfeeding Support in Emergencies Fund.

In June 2023, LLLI became a member of the Infant Feeding in Emergencies (IFE) Core Group.

LLLI Renewed its DCE Agreement with LLL Alliance for Breastfeeding Education.

Webinar “Bias and Breastfeeding,” originally presented as part of the La Leche League International Conference in 2021 by Lola Ornato, was FREE to the public from 25 - 31 August 2023 in celebration of Black Breastfeeding Week.

Breastfeeding Support In Emergencies subcommittee within the ANA Committee has been approved and the first call for Leaders to join was sent out in the 30 September 2023 LLLI News.

Board member, RuthAnna Mather was interviewed by the ENN Senior IFE Technical Lead Consultant; an experienced professional who oversees and provides expert guidance regarding Breastfeeding Support in Emergencies.
Laurel Cahill has been a La Leche League Leader in Solomons, Maryland, USA for over 7 years. She has been the administrator for the English LLLI Breastfeeding Support Group on Facebook since September 2023, assisting the group in answering over 7,000 member questions per year. She is also an IBCLC, epidemiologist, and mother of 3 boys.

- Views on website: 8.3 million
- Facebook moderating team: 7,197 responses to those seeking breastfeeding information and support
Created the Marian Tompson Breastfeeding Support in Emergencies Fund; a restricted fund created to support breastfeeding during emergency situations.

Leaders were contacted about local disasters happening in the following regions and countries: Hawaii, USA; western Morocco; Naples, Italy; Israel; Guerrero, Mexico; Karnali Province, Nepal; Chennai, India; Noto Peninsula, Japan; and southern Guatemala.

The Infant Feeding in Emergencies (IFE) Core Group requested Arabic resources for response materials in Gaza. LLL resources in Arabic were shared with the IFE Core Group partners.

Leaders and supporters from all Direct Connect Entities (DCEs) serve on LLLI committees: EAN 11.45%, IAN 26.72%, Ligue La Leche 3.05%, LLL Alliance for Breastfeeding Education 17.56%, LLL Canada 6.87%, LLLGB 7.63%, LLLNZ 2.29%, LLL USA 20.61%, no affiliation 3.82%.
The Leader Accreditation Department (LAD) is the department that accredits LLL Leaders on behalf of the Board of Directors. A goal of the department is to increase the number of accreditation resources on the LLLI website. We are continually adding resources in different formats and different languages.

In 2023-2024 the LAD:

- Accredited 210 new Leaders
- Initiated 262 new applications for leadership
- Responded to 262 inquiries about leadership from the LLLI website
- Initiated the column “Supporting Leader Accreditation” in the monthly newsletter for Leaders
- Provided two educational opportunities for all members of the department
- Online discussions: "Motivating Applicants"
- Powerpoint Presentation: “What’s Important about LAD Work"
- Completed the draft revision of Childbirth and Breastfeeding, a resource for Applicants

Special thank you to outgoing DLAD Linda Wieser who was reappointed as Director of the Leader Accreditation Department (DLAD) for 2023-2024.
Jayne Joyce (she/her) MA, MSc, IBCLC, has been a La Leche League Leader since 2003. She is mother of three children (born 2000, 2003, 2008) and lives in England, UK. Following a degree in History and a Masters in Social Work from Oxford University, Jayne began her professional life as a social worker, specialising in adoption. After having her own children, she realised that the best time to help parents and children build strong attachments is around birth.

Jayne worked as an IBCLC at the charity Oxfordshire Breastfeeding Support for over ten years. From 2018 to 2022, she led the small team of feeding specialists and a wonderful team of volunteers, working hard to increase diversity, access and equity.

Jayne is honored to be one of the writers of the next edition of The Art of Breastfeeding. She didn’t think of herself as a writer, but over the last few years has written content for the LLLGB website, teaching materials for peer supporters, midwives and medical students, and clinical leaflets that have been used as models elsewhere in the UK.

Jayne likes to relax by leading LLL meetings and doing Helpline callbacks. She also loves yoga, Body Balance and Pilates, choral singing, and eating, walking and talking with friends.
Bibiana Moreno-Carranza (she/her), PhD, has been a La Leche League Leader since 2017. Originally from Spain, where she got her bachelor degree in Biology, Bibiana lives in Mexico with her two boys (7 and 3 years old).

Bibiana earned a PhD in Biological Sciences in Germany and has dedicated her professional life to research. She has more than ten years of experience in biomedical research and, to date, she has published 18 scientific articles in research journals, as well as two book chapters.

Bibiana also has extensive academic experience. She is the Principal Professor at Universidad Anáhuac Querétaro, where she teaches breastfeeding and neonatal development both in undergraduate and postgraduate courses aimed at future health science professionals. In addition, Bibiana trained as a lactation consultant with FEDALMA and EDULACTA, and is currently a member of the professional advisory committee for GOLD Lactation and GOLD Tongue-tie.

Bibiana enjoys learning new things and explaining them the easiest way she can to her children and students. Besides this, she loves to play with her children and four dogs, and to travel and learn from different cultures.
Meet The Writers

Teresa Pitman

Teresa Pitman (she/her), BA Journalism, has been a La Leche League Leader since 1978. She has four adult children and ten very beloved grandchildren (all breastfed). She lives in Canada.

After studying Chemistry and then Journalism, Teresa has written hundreds of magazine and newspaper articles primarily on parenting topics for publications such as Today’s Parent, Mothering, and Toronto Star.

Teresa is also the co-author of 18 published books, including Dr. Jack Newman’s Guide to Breastfeeding, Baby-Led Weaning, Preparing to Breastfeed, Pregnancy and Birth: The Best Evidence, Roots of Empathy and more. She was one of the co-authors of the 8th Edition of the Womanly Art of Breastfeeding and Sweet Sleep.

As well as writing books and articles, Teresa speaks frequently at conferences and has worked in a communications role for the University of Guelph and several child welfare agencies in Ontario. Teresa was the Executive Director of La Leche League Canada for three years.

Teresa has ridden horses since she was a small child and still owns a good-natured gelding named Cody. She’s an avid reader who loves amusement parks and roller coasters, vegan baking, and spending time with grandchildren.
Anna Swisher (she/her), MBA, IBCLC, has been a La Leche League Leader since 1995. A mother of three grown children and a grandmother of three adorable grandsons, she lives in the USA with her husband and one very spoiled dog.

She has worked as an IBCLC for over twenty years in both private practice and in hospitals, and has also worked as the clinical coordinator for Mothers’ Milk Bank at Austin (USA).

Anna is the co-author of Counseling the Nursing Mother, an award-winning lactation textbook now in its seventh edition. Anna also enjoys other writing projects, including editing The Breastfeeding Atlas for Barbara Wilson-Clay and Kay Hoover, and helping people write their memoirs. She also enjoys speaking at conferences and mentoring the next generation of healthcare givers in lactation science.

Anna loves empowering parents in acquiring their parental role and educating families to meet their breastfeeding goals. Personally, Anna loves hiking, traveling, reading, writing, and spending time with family and friends. Coffee is her favorite beverage.
Breastfeeding is a critical aspect of infant and young child nutrition, providing essential nutrients and protection against diseases. During emergencies, when access to clean water, sanitation, and healthcare may be compromised, breastfeeding becomes even more vital as a reliable source of nutrition and immunity for infants and young children. In addition, these adverse events are stressful for infants as well as those around them. The emotional benefits of the intimate breastfeeding relationship can help to mitigate the adverse effects of these stresses on infants and their caregivers.

The Marian Tompson Breastfeeding Support in Emergencies Fund is a charitable initiative established to support breastfeeding during emergency situations. Named after La Leche League Founder Marian Tompson, this restricted fund will provide assistance and resources to LLL entities and Leaders so that they can reach out to communities and families facing crises such as natural disasters, conflict, displacement, and other emergency situations.

Breastfeeding is a critical aspect of infant and young child nutrition, providing essential nutrients and protection against diseases. During emergencies, when access to clean water, sanitation, and healthcare may be compromised, breastfeeding becomes even more vital as a reliable source of nutrition and immunity for infants and young children. In addition, these adverse events are stressful for infants as well as those around them. The emotional benefits of the intimate breastfeeding relationship can help to mitigate the adverse effects of these stresses on infants and their caregivers.

The Marian Tompson Breastfeeding Support in Emergencies Fund seeks to raise awareness about the importance of breastfeeding during crises and to ensure that mothers have the necessary support to continue breastfeeding. By supporting this fund, individuals, organizations, and communities contribute to the protection and well-being of the most vulnerable members of society during times of uncertainty and upheaval.

The Marian Tompson Breastfeeding Support in Emergencies Fund exemplifies the commitment to safeguarding the health and development of infants and young children in the face of challenging circumstances. For more information please contact the Breastfeeding Support in Emergencies committee at bfsupportinemerg@llli.org
INFANT FEEDING IN EMERGENCIES

At La Leche League International, we believe in the transformative power of breastfeeding support, especially in times of crisis. Our commitment to providing compassionate assistance to breastfeeding families during emergencies underscores the vital role breastfeeding plays in nurturing and sustaining communities worldwide. Through our dedicated efforts, we offer multilingual resources for infant feeding in emergencies. Together, we navigate challenges, restore stability, and empower families to thrive, one breastfeeding journey at a time.

Please contact the Breastfeeding Support in Emergencies subcommittee at bfsupportinemerger@llli.org for more information or visit our website at https://llli.org/breastfeeding-info/infant-feeding-emergencies-multilingual/.
The Art of Breastfeeding Conference will take place online from 14 - 15 October 2024. This virtual conference will connect people from all over the world to learn about a wide variety of topics pertaining to breastfeeding.

This conference will also celebrate the 9th edition of *The Art of Breastfeeding*, releasing in stores this October.

You won’t want to miss this amazing event!

**THE ART OF BREASTFEEDING**

*Online Conference*

GLOBAL HIGHLIGHTS

LLL USA
Every summer, La Leche League USA encourages and supports Live, Love, Latch!™ events across the nation to celebrate breastfeeding/chestfeeding/bodyfeeding families. These distinctive celebrations build community, raise awareness, and showcase the importance of the LLL mission and outreach. There were 21 Live, Love, Latch!™ events in 2023 with almost 1000 participants! This photo shows the gathering hosted by LLL Intercultural Area.

LLL European Area Network (EAN)
With its over a thousand accredited volunteers, the European Area Network spreads its information and support over more than 25 countries and languages. From well-established entities being connected to LLL for about 50 years, to new and upcoming entities, the passion of the volunteers is incredible.

With a presence of all available social media, they reach over 300,000 followers. Most entities have their own website in their own language, generating 20 million pageviews a year. In groupsetting, both online and in person, 9,000 people are reached. Many entities have found their own way in supporting parents. Hungary is active on YouTube, while Ireland has massive numbers in supporting parents through WhatsApp.

Besides that, LLL volunteers participated in national breastfeeding coalitions, and organized webinars and conferences.

Making connections and feeling connected is the fundament of the La Leche League entities in Europe!
GLOBAL HIGHLIGHTS

LLL New Zealand
The past year has seen LLLNZ focus on bringing together a revitalising conference, held in April 2024. It was especially important for us to hold this event to celebrate the 60th anniversary of La Leche League in New Zealand. It was also the first opportunity to meet in person since 2018, due to the interruptions created by the Covid pandemic in recent years. The conference, held over three days, was a success, with plenty of camaraderie and new ideas generated to strengthen future activities. Our speakers were excellent and covered a variety of topics. The main conference was held alongside a health professional seminar and an LLLNZ Alumnae Association reunion. The mixture of events enabled valuable interaction between the groups of delegates. Plans for the next LLLNZ conference in 2026 will see this important fixture return to its usual biennial occurrence. - Janine Pinkham, Board Chair LLLNZ

Ligue La Leche
The past year has been marked by significant achievements for Ligue La Leche. Our participation in the Symposium for Healthcare Professionals and Volunteers in Perinatal and Breastfeeding Support was complemented by a keynote address from renowned speaker Claude Didierjean-Jouveau. Additionally, our presence at Salon Maternité, Parternité et enfants (the Maternity, Paternity, and Children Expo) facilitated outreach to a diverse audience, enhancing awareness of our organization's mission and services. We hosted 25 in-person and 12 virtual meetings while collaborating on projects such as "La Route du Lait" to normalize breastfeeding in public spaces. We finalized translations for key resources, including the translation and layout of James J. McKenna’s "Safe Infant Sleep" and Nancy Mohrbacher’s latest book, "Breastfeeding Answers," to demonstrate our dedication to providing accessible information. Our seven new website resources further underscore our commitment to inclusivity and accessibility. We remain steadfast in our endeavor to provide comprehensive support and information to parents, healthcare professionals, and pharmacists alike.
GLOBAL HIGHLIGHTS

LLL Canada
La Leche League Canada had another exciting year full of both annual and new projects. In June, we hosted another conference for healthcare professionals, and in October, we held a conference for parents in honour of Canadian Breastfeeding Week. Several times a year we host a Communication Skills Development course for healthcare professionals for which participants can earn 6 LCERPs.

This year our LAD launched a new online 10-week group course for Leader Applicants. They meet weekly for two hours with our CLA and Office Administrator (who was formerly a member of LAD). They complete homework assignments for each class and spend time discussing and learning together during the weekly sessions.

In March, LLC launched our updated prenatal breastfeeding class called LLC Breastfeeding Essentials. The beautiful, branded slide deck comes with a script Leaders can use to present the class either in-person or online in about 90 minutes. The class is being promoted on the homepage of the LLLC website and via social media.

LLL Alliance for Breastfeeding Education, United States
LLL Alliance launched an internet landing page Find-Breastfeeding-Help.org in the spring. We continue to support the United States Breastfeeding Committee with the signing-on of governmental letters pertaining to breastfeeding legislation and grant proposals. The Communication Skills Department of LLL Alliance created an interactive Bias Exercise for Leaders and LLL Leader Applicants. We aim to promote self-awareness, understanding, and actionable steps towards creating more inclusive and equitable leadership within the organization.

LLL Alliance Areas celebrated World Breastfeeding Week and National Breastfeeding Month with picnics, exhibit tables at state health department breastfeeding Conferences, family health days at local hospitals, and park days. Black Breastfeeding Week was celebrated with outreach at town farmers markets and with ice cream socials for families. All breastfeeding and chestfeeding awareness weeks were acknowledged and highlighted on social media.

Through these initiatives, LLL Alliance aims to create a more breastfeeding-friendly world and empower families to make informed feeding choices for their children. We are proud to be part of a global network that is dedicated to promoting and supporting breastfeeding as the norm for infant feeding.
GLOBAL HIGHLIGHTS

International Area Network (IAN): LLL Argentina
At LLL Argentina we begin a series of three updates in 2023:
*Multiple breastfeeding
*Effects of crying on the brain of the baby and the mother
*Breastfeeding when a perinatal death occurs

We continue for the second consecutive year holding the GALAs (Support Group for Argentine Leaders) by Zoom meetings. The most relevant event was held by UNICEF and CESNI at the stock exchange in the city of Rosario, where the results of a study carried out on digital marketing of Breast Milk Substitutes were presented. We participated in breastfeeding and work and we simulated a support group to sensitize people in work environments.

LLL Great Britain
LLLG National Workshop 2023
- Service awards - presentation of certificates and pin badges at our first LLLGB in person National workshop since 2019, a joy for many to gather together and a chance to present Leader service pins to all.
- We are pleased in LLLGB to have many new Leaders and Leaders who continue to serve for many years.
- LLLGB’s Podcast launched in 2023 - www.laleche.org.uk/podcast/. Hosts Sarah and Maria, both Leaders in LLLGB, were interviewed for our March/April member publication Breastfeeding Matters.
REVENUE AND SUPPORT
FISCAL YEAR 2023-2024

The accomplishments of La Leche League International this past fiscal year would not have been possible without our generous donors and volunteers. Thanks to the support of individuals, foundations, and corporate partners, LLLI has been able to continue supporting its presence and impact on the worldwide issue of breastfeeding support and advocacy. All figures shown are in U.S. currency.
Thank you to our partners in 2023-2024 for supporting the mission and values of La Leche League International!
